

Samsung Smart Doorlock

SHP-DH538

Smart home starts at your front door.

Randomizer

Low Battery Notification

Intrusion Alarm

Your door deserves smarter.

Security

Randomizer

Before you enter your password, you will be prompted to enter two randomly chosen digits. This makes it impossible to guess which numbers have been entered by looking for fingerprint smudges on the touch pad.

Intrusion Alarm

After 5 failed entry attempts lock will disable itself for 3 minutes, preventing authentication of any kind. Forced entry or attempted tampering to bypass the lock will set off alarm immediately.

Anti-theft Mode

Enable Anti-theft mode when you leave the house. Once activated, an alarm will trigger if anyone attempts to open the door from inside.

Convenience

Fingerprint Access

Using the same fingerprint authentication methods as modern Smartphones, the scanner is not affected by temperature or humidity. A precise and rapid one-touch direct fingerprint authentication method that does not require any further actions to open the door.

Volume Setting

Volume can be adjusted or muted entirely for the benefit of those around you.

Low Battery Notification

When the batteries are running low, the doorlock informs you with melody and LED icon.

Safety

High Temperature Alarm

When the built-in sensor detects abnormal high-temperature, the alarm will be triggered, and the doorlock will flash to alert the user. The doorlock will be also automatically unlocked to allow fast escape.

RoHS Compliant

Comply with EU RoHS standards, and free from six hazardous substances to the human body.

Specification

Product Detail

Battery	Alkaline 1.5V AA battery(LR6) x 4	
Backup Power	A 9V battery (not included)	
Weight	2.7kg (including inner/outer unit)	
Product Size (including lever)	Outer unit	81.8mm(W) x 320mm(H) x 66.8mm(D)
	Inner unit	79mm(W) x 290mm(H) x 80.3mm(D)

Family Product

SHP-DH537

Access RFID key tag, Password, Mechanical key

Color Copper, Dark brown
