

Easy & Fast!

*The most advanced
door opening technology*

One action to open or close
(Push-Pull handle)

Fast and accurate
fingerprint authentication

Real-time arrival
notification

Mobile app to unlock
the door lock

※ The specific features above ('Real-time arrival notification' and 'Mobile app to unlock the door lock') are available with the IoT Service Pack, which is separately sold.

new

Make your life easier than ever
with a piece of mind

SHP-DP609

Easy and Fast

One action to open or close

You can easily open the door by pushing or pulling the easy Push-Pull handle with low noise, and vice versa.

Your finger is the key

Just one touch with your finger to open the door with fast and accurate fingerprint sensor. Give you a piece of mind.

Voice Guide

Spoken feedback to guide users for setup and ongoing use.

Welcome Function

Approaching the door will automatically activate the touch pad allowing convenient passcode entry. Repeated pacing around the entry will also set off the alarm.

Status Display

LED displays basic information for user on screen, such as door lock condition, authentication and low battery warning.

Security and Safety

Intrusion Alarm

Attempted forced entry or tampering to bypass the lock will set off alarm immediately.

Anti-theft Mode

Enable Anti-theft mode when you leave the house. Once activated, an alarm will trigger if anyone attempts to open the door.

Data Security

Important information like passwords and app data is protected by state of the art security technology. If you lose your smartphone, you can erase your access codes easily.

Random Security Code

Before entering your password you will be prompted to tap two randomly chosen digits, making it impossible to guess which numbers you have entered by looking for smudges.

Smart IoT Features (Wi-Fi)

※ The specific features in this section below are available with the IoT Service Pack, which is separately sold.

View Access Logs

Know who is coming home in real-time. Receive alerts when members of your family arrive home. Browse access history logs.

Unlock with Smartphone anytime, anywhere

Whether you are out of the home, the app helps unlock the door lock for your visitor.

Smart Bell

Receive alerts when visitor touches the smart bell icon (the door bell icon) on the touch pad. Your phone acts as your doorbell.

Duration Password

Time worker (the regular visitor) can enter and exit your house only at certain period of time. By setting duration password, you can check when the worker entered and exited your house.

One Time Password

Issue single-use temporary passwords for convenient visitor access.

2480*

Free download the mobile app 'Samsung Smart Doorlock' from the Apple App Store™ or Google Play™ for Smart IoT Features.
